BIO

The Age of Ore is a one-of-a-kind metal and hard rock trio from the Philadelphia area made up of young talented musicians. They have been writing new, original, heavy music and recording with well-established veterans of the music industry. Ore's influences include metal and rock legends ranging from Black Sabbath and Dio to the likes of Alice in Chains, Tool and System Of A Down. With band members between 15-18 years old, The Age of Ore is young...but powerful. They released an EP in 2019, seven singles in 2021 and 2022 and are currently in the studio recording new music to release in 2023!
